

**Innovation**

Weed brush

# WKB 660 Honda

*Aggressive, user-friendly, chemical free -  
weed removal as simple as that.*

# Westermann weed brush WKB 660 Honda

*No cleaning stripes on sensitive pavings.*

Powerful Honda industrial engine is taking care of an equal and steady brushing power.

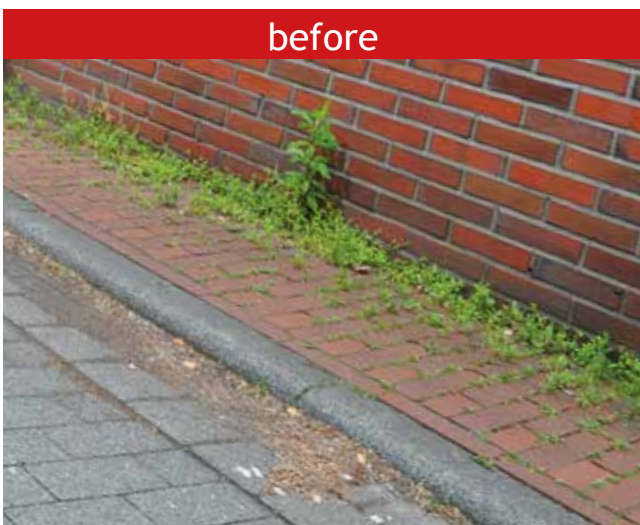

The windrow maker / splash back can be mounted toolless.

Weed removing up to the edges.

Extreme weedcover is eliminated efficiently.

Strong weed cover between the gaps.

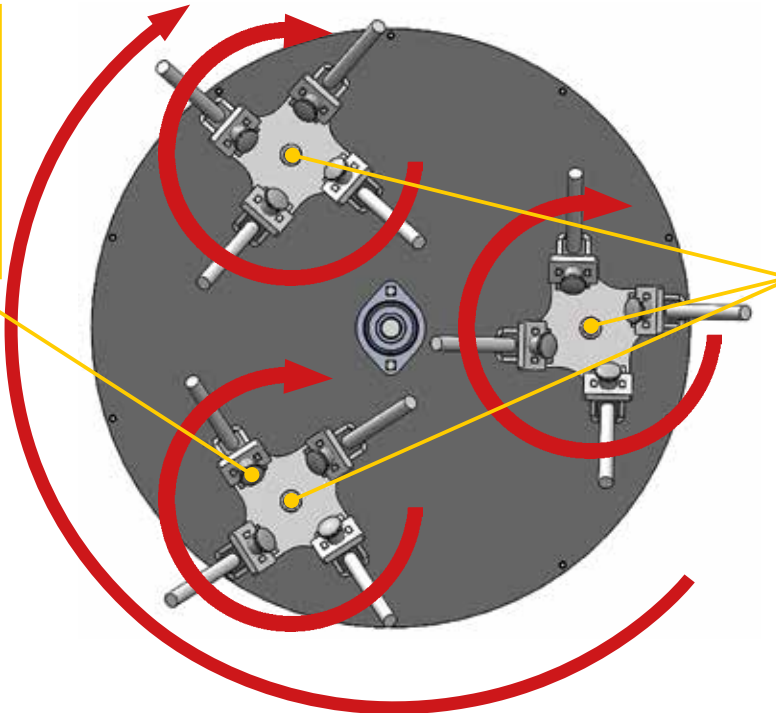

Persuasive result after only one passage.

*Mechanical weed removing as time-saving alternative.*

# THE HIGHLIGHT

*The plants are attacked from all sides and removed with big rootpart.*

Changing of wire braids without any tools because of a simple quick-change system.

Three rotating brush-carrier and the equal ground pressure prevent the floor from scratches.

Here you can see the video:

Durable, adjustable wire braids which can easily be replaced via quick-change system.

Height adjustable wheel suspension is adapting to the brush length, so that a permanent and steady brush contact is ensured.

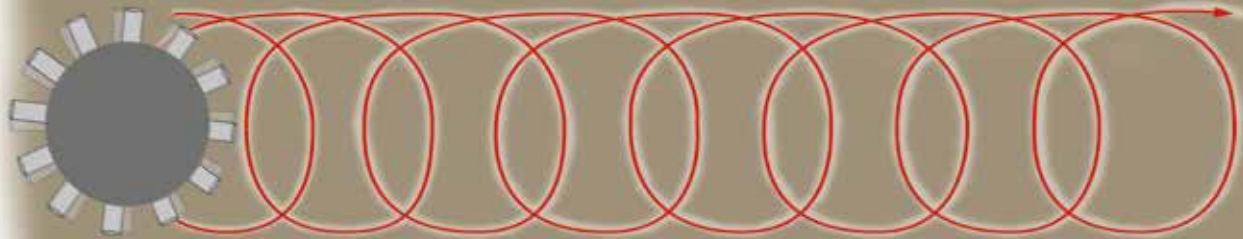

## Technical data

	<b>WKB 660 Honda</b>
Brush engine	Honda GXV 160 OHV 4 tact benzine engine (industrial engine)
Brush	3 spin around wire braids à 4 plaits
Working width	660 mm
Turning direction of brush	right
Surface performance	1.800 m <sup>2</sup> /h (depending of level of dirt)
Pushing holm	with height adjustment of wheel
Wheel	filled with polyurethane (with ball bearing)
Weight	ca. 95 kg
Accessories	windrow maker

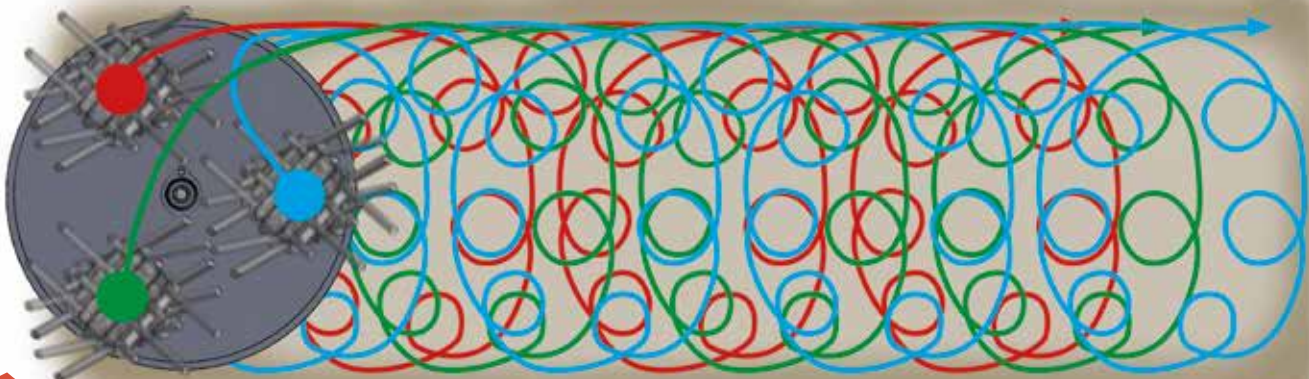

# CORNERS AND EDGES one's weakness but our strength!

## Sweeping principle of other producers

VISIBLE sweeping stripes on sensitive pavements.  
The weed is only sheared off.

## Sweeping principle **Westermann** WKB 660 Honda Radialbesen

NO sweeping stripes on sensitive pavements.  
The weed is attacked from all sides repeatedly.

## FACTS

- > 660 mm working width for a higher surface performance
- > Weed free sweeping result even close to the walls
- > Easy usage and simple handling
- > Intensive removal of root parts
- > Thorough weed removal, without damaging the pavement
